2015 QHP Eligibility Renewals and Redeterminations Flowchart (for FFM & partnership states)

* Unless updated information triggers Medicaid or CHIP eligibility and then consumer will be enrolled in Medicaid or CHIP.

** APTC/CSR will not renew for 2015 if consumer's tax data is not available (either consumer did not authorize release or IRS does not provide) or consumer's 2013 income tax data is > 500% FPL.

*** If the same QHP is not available, HHS rules require issuer to enroll consumer in a new plan in this order: 1. same tier; 2. up or down one tier; 3. other plan of issuer (which can include a non-marketplace plan).
