Notes: * Marketplace data represent the cumulative number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan from 10-1-13 to 3-31-14, including Special Enrollment Period-related activity through 4-19-14 (with or without the first premium payment having been received directly by the Marketplace or the issuer), excluding plan selections with unknown data for a given metric. Because of systems obstacles faced by the Massachusetts Marketplace, the plan selection enrollment numbers in this table do not include 160,000 new applicants above 133 percent FPL who are in Temporary Subsidized Coverage; these individuals will be processed for QHP Eligibility Determination and potential coverage retroactive to the current reporting period. There are also 112,192 persons between 133 and 300 percent FPL currently extended Commonwealth Care coverage, who were scheduled to transition to QHP coverage following October 1, 2013, but who have not been processed due to systems problems. Without the systems obstacles faced by the Massachusetts Marketplace, the number of individuals enrolled in a QHP with the Massachusetts Health Connector as of 4/15/14 might be as many as 303,000. The age and metal level breakouts for plan selection enrollment represents the time period 10/1/13 - 3/31/14; demographic breakouts through 4/19/14 were unavailable at the time of publication.

** Medicaid/CHIP data are state reported and represent the difference between March 2014 enrollment and Pre-ACA Monthly Average Medicaid and CHIP Enrollment (July-Sept 2013). Not all changes in enrollment may be related to the Affordable Care Act. Because these data are state-reported, detailed questions about the Medicaid/CHIP data should be directed to the states.
